Magic Course

### Week One Homework Assignments:

#### I. Meditations

- a. Complete the Prosperity Orb Of Light Meditation before doing any other meditations or homework; Do this meditation once per day if possible. Make sure that it gets done at least 5 times per week over the next 28 days.
- b. Once you have completed the above meditation at least once, do the AM Prosperity meditation each morning, and the PM meditation each evening right as you are falling asleep
- c. Do the AM and PM meditations daily for a minimum of 28 days; if you miss a day start the 28 day cycle over again.

#### II. Prosperity Candle

- a. Purchase a large green candle, preferably a pillar candle that will burn for many hours and that is not in any type of glass so that you can carve on the wax.
- b. Inscribe on the wax, to the best of your ability, the prosperity symbol. Don't worry if it isn't perfect (hint: a small or medium nail works well for this).
- c. If you can't find a large green candle, a gold or white one will work.
- d. Anoint your candle with olive oil, or prosperity oil
- e. Bless the candle as part of a Prosperity Orb of Light Meditation (right after the new moon is best if possible)
- f. Chant for several minutes to charge your candle: **“Light of gold and light of green; wealth invisible and seen; prosperity and riches flow; abundance now expand and grow.”**
- g. Use this candle for all your prosperity magic for the next 28 days.
- h. If for some reason you are in a living situation that prohibits burning candles, you may write the symbol on a piece of paper and either place a “flameless” candle on top of the paper, or you can visualize a candle on top of the paper.
- i. NEVER LEAVE A CANDLE BURNING UNATTENDED FOR ANY REASON.

#### III. Prosperity Journal

- a. Obtain a notebook, preferably a three ring binder so that you can rearrange the sheets over time.
- b. It is also a good idea to get some divider sheets so that you can organize your journal by category.
- c. Bless your notebook with Salt and Water, and Fire and Air if possible. At the very least take it into an Orb Of Light meditation and see it blessed and consecrated with the green and gold light of your orb. Use the same prosperity chant you used for your

candle to bless your journal.

- IV. Blessing Your Primary Source of Income
  - a. For the next 28 days, as part of your daily magical practice, bless your primary source of income by sending love, gratitude and light into your work.
  - b. Find ways to become even more effective and better at the work you do at your primary source of income.
  - c. Make sure that for the next 28 days all your words about and within your primary source of income are positive (don't participate in work place gossip, don't complain about your job in any way, etc.).
  - d. If you are unemployed, bless your job search in the same ways as described above.
  
- V. Goals
  - a. Work a little each day this week on developing and maintaining a list of things you want to be, do and have. Make sure that you read over and revise this list at least once per week, more often is better.
  - b. Be sure that you have within that list some financial goals, such as yearly income, total net worth, amount of savings, etc.
  - c. If you have already started your goal list prior to this class, take time with it this week anyway and make sure it is up to date.
  
- VI. Daily Manifestation List
  - a. For the next 28 days end each day by making a list of 6 things you want to see happen on the following day.
  - b. Make sure that each item is something that you could easily accomplish yourself if need be.
  - c. Make sure that at least one item on the list is something bringing you toward one present financial or career goal you are working on.
  - d. Make sure that at least one item on the list is something that is pure fun and joy for you (i.e. go to the movies, get a manicure, take a walk, get a massage, etc.)
  - e. Bless each item on the the list as it is accomplished with a positive symbol such as a pentagram, heart, dollar sign etc. Don't check the items off or cross them off.
  - f. If there is an item that does not manifest, put it on the following day's list.
  - g. If you notice that you are not manifesting all 6 items, then you are trying to manifest things that are too big. Break them down into smaller items.
  - h. If you notice that there is an item that gets moved to other days more than once, make it your top priority, on the following day, and/or break it into smaller segments if possible and spread it out over two or more days.

### VIII Daily Spell Work:

- a. As close to the new moon as possible, choose a goal from your goal list to work on
- b. Write on a piece of paper the goal you are working on (financial goals are great for this). Write the goal in as much detail as possible, including the date on which you want it to be completed by.
- c. Write the goal as if it has already happened and include the following phrase:  
**“This is done in an easy and relaxed manner, in healthy and positive ways for the highest good of all. The divine plan for achieving this goal already exists fully formed and is now being revealed to me each day, and I gladly receive it. I now do as I am instructed each day and I rejoice in the fulfillment of my desire.”**
- d. Place a copy of the prosperity symbol you have drawn on top of the paper with your goal.
- e. Light your prosperity candle.
- f. Chant your chosen line or lines from the Grand Money Incantation (GMI) aloud for a minimum of 5 minutes each day while you are focussing on the prosperity symbol (15 minutes is optimal — start with just one or two lines so it’s easy to memorize).
- g. After you have finished chanting, sit for a moment and visualize your goal coming to fruition. See it in your mind’s eye as happening here and now as if you were seeing it happening to you from your own eyes (don’t see yourself off in the distance).
- h. In addition to your daily spell work with this paper, read this entire statement aloud each night before your PM meditation and each morning before your AM meditation.
- i. Continue with this until the full moon. Then burn the paper to release it to its fulfillment. If the goal manifests prior to the full moon, you may burn the paper then instead.
- j. Each new moon work you may return to the same goal if it is a long term goal, or you may start a new one as is your preference.

**Example goal statements for spell: “I earn over \$25,000 by December, 2020 from sales in my Etsy store. It is done in an easy and relaxed manner, in healthy and positive ways for the highest good of all. The divine plan for achieving this goal already exists fully formed and is now being revealed to me each day, and I gladly receive it. I now do as I am instructed each day and I rejoice in the fulfillment of my desire.”**

**“I earn \$200,000 in the year of 2020 doing only what I love to do. It is done in in an easy and relaxed manner, in healthy and positive ways for the highest good of all. The divine plan for achieving this goal already exists fully formed and is now being revealed to me each day, and I gladly receive it. I now do as I am instructed each day and I rejoice in the fulfillment of my desire.”**
